DIARY NOTES

25X1A

DD/S [REDACTED]

7 September 1961

1. I spent an hour and a half at the new building this morning. While much remains to be done it does appear that the building will be ready for people to start moving in on the nineteenth of September as scheduled. H

2. [REDACTED] telephoned to say that the Bureau of the Budget wanted to have hearings on our Fiscal Year 1962 apportionment requests and that questions which they had raised were policy questions of considerable scope and magnitude. I told him that I would be away tomorrow but that I would be glad to talk to him about this on Monday, the eleventh of September. I also told him that in the meantime it seemed impractical to start these on Monday and suggested that he request the Bureau to release 60 per cent of the amount requested pending the hearings.

3. I obtained General Cabell's signature on a paper which will authorize us to go ahead with the TSD construction at [REDACTED] however, he was insistent that I follow up and find out on whose authority the [REDACTED] District Public Works Officer advertised for these bids. This I, of course, intended to do anyway.

4. [REDACTED] was up to see me to seek assurance that he was not scheduled for reassignment out of the Washington area in the next year or so because he is building a house near Great Falls. I told him that I did not believe that he was scheduled for reassignment but that I would check and let him know. Dick also wanted to express his intense interest in going to the Industrial War College. I told him that I would give this every consideration but that he definitely was not being recommended for the session beginning next September.
